

Designed in consultation with industry, this training programme will provide you with the technical skills and operational knowledge to undertake first-line supervision responsibilities at a workplace within a surface context.

With the responsibility for the performance and safety of your team a key concept of the programme, you'll also acquire the planning and organisational skills to implement work and production schedules.

Programme outline

This work-based programme is expected to take 2 years to complete.

The training programme includes a mix of practical training and assessment, undertaken in the workplace, and eLearning, allowing you to complete theory elements of the programme at your own pace. You will have access to online learning activities and course assessments, which can be easily accessed at any time and from any device – mobile phone, tablet or PC.

Entry requirements

You must be employed full-time in the industry and should have a minimum of 12 months relevant experience at a surface mining, quarrying and/or processing operation to enrol in this programme.

2024 programme fee

\$624 (excluding GST and any bulk learner discount). Note this is an annual fee and is non-refundable.

Enrol now

If you're ready to get qualified, enrol now at mito.nz/surface.
