

Title	Demonstrate knowledge of the application of regulatory requirements to manage an extractive site		
Level	6	Credits	25

Purpose	People credited with this unit standard are able to explain: the application of the Health and Safety in Employment at Work (HSE/HSW) Act 1992 2015; the application of the Resource Management Act 1991; the application of the Crown Minerals Act 1991; the application of the Hazardous Substances and New Organisms (HSNO) Act 1996, HSNO Regulations 2001; and the application of the Mines Rescue Act 2013; and any subsequent amendments and/or replacements relevant to management practices of an extractive site.
----------------	---

Classification	Extractive Industries > Extractive Industries Management
-----------------------	--

Available grade	Achieved
------------------------	----------

Guidance Information~~Explanatory notes~~

- Performance of the outcomes of this unit standard must comply with the following:
 - ~~Health and Safety in Employment Act 1992 (HSE);~~
 - ~~Health and Safety at Work (General Risk and Workplace Management) Regulations 2016;~~
 - ~~Health and Safety at Work (Mining Operations and Quarrying Operations) Regulations 2016;~~
 - ~~Health and Safety at Work (Worker Engagement, Participation, and Representation) Regulations 2016;~~
 - ~~approved codes of practice issued pursuant to the HSW Act;~~
 - ~~Health and Safety in Employment Act 1992 (HSE);~~
 - ~~Health and Safety in Employment Regulations 1995;~~
 - ~~Health and Safety in Employment (Mining Operations and Quarrying Operations) Regulations 2013;~~
 - ~~approved codes of practice issued pursuant to the HSE Act;~~
 - Resource Management Act 1991;
 - Crown Minerals Act 1991;
 - Mines Rescue Act 2013;
 - Hazardous Substances and New Organisms Act 1996 (HSNO);
 - HSNO Regulations 2001 – Hazardous Substances (Classes 1 to 5 Controls), Hazardous Substances (Identification), Hazardous Substances (Packaging), Hazardous Substances (Disposal), Hazardous Substances (Emergency Management), Hazardous Substances (Tracking).

- 2 Any new, amended or replacement Acts, regulations, standards, codes of practice, guidelines, or authority requirements or conditions affecting this unit standard will take precedence for assessment purposes, pending review of this unit standard.
- 3 Definition
Management practices include the employment of suitably qualified and trained personnel, their induction into company and mine site procedures, their ongoing assessment and training, the preservation of their health; the safety of, personnel, equipment, and the mine site; the care and preservation of the environment.
- 4 This unit standard is intended for, but is not limited to, workplace assessment.

Outcomes and ~~performance criteria~~evidence requirements

Outcome 1

Explain the application of the Health and Safety ~~in Employment at Work~~ Act ~~1992~~2015, its amendments and/or replacements, and regulations relevant to management practices of an extractive site.

Performance criteria

~~Evidence requirements~~

- 1.1 The ~~HSE-HSW~~ Act and its amendments and/or replacements are explained in terms of their application to management of an extractive site.

Range includes but is not limited to – reasonably practicable, duties and their application for a person conducting a business or undertaking (PCBU) and officers and workers, notifiable events, inspectors, offences and penalties~~employee responsibilities, employer responsibilities, duties of employers, duties of employees, accidents, inspectors, improvement and prohibition notices, offences and penalties, definition of a mining operation.~~

- 1.2 Regulatory requirements are explained in terms of their application to management practices of an extractive site.

Range includes but is not limited to – ~~Health and Safety in Employment~~HSW (Mining Operations and Quarrying Operations) Regulations ~~2013~~2016, HSW (General Risk and Workplace Management) Regulations 2016, HSW (Worker Engagement, Participation, and Representation) Regulations 2016; includes but is not limited to – workplace facilities, stress, principal hazard management plans, principal control plans, certificates of competence, statutory positions and associated roles, worker participation, worker health, electrical and mechanical engineering, emergency management.

Outcome 2

Explain the application of the Resource Management Act 1991 and its amendments and/or replacements relevant to management practices of an extractive site.

Performance criteria

~~Evidence requirements~~

2.1 The Resource Management Act 1991 and its amendments and/or replacements are explained in terms of its application to management of an extractive site.

Range duties and restrictions, resource consents, offences and penalties, consultation.

2.2 Other relevant legislation and territorial authority requirements are explained in terms of their application to management of an extractive site.

Range may include but is not limited to – confidentiality, heritage issues, cultural issues, community issues, recreational issues, employment issues, conservation issues.

Outcome 3

Explain the application of the Crown Minerals Act 1991 and its amendments and/or replacements relevant to management practices of an extractive site.

Performance criteria

~~Evidence requirements~~

3.1 The Crown Minerals Act 1991 and its amendments and/or replacements are explained in terms of their application to management of an extractive site.

Range permit application and granting – exploration, prospecting, and mining, access to land, registers and records, offences and penalties, mining licences.

Outcome 4

Explain the application of the Hazardous Substances and New Organisms Act 1996, HSNO Regulations 2001 and any subsequent amendments and/or replacements relevant to management practices of an extractive site.

Performance criteria

~~Evidence requirements~~

4.1 The Hazardous Substances and New Organisms Act 1996, and its amendments and/or replacements are explained in terms of their application to management of an extractive site.

Range principles, approved handlers, test certifiers, controlled substance licence (CSL), penalties and liabilities, inspectors, emergencies.

4.2 Regulatory requirements and their amendments and/or replacements are explained in terms of their application to management practices of an extractive site.

Range HSNO Regulations 2001 – Hazardous Substances (Classes 1 to 5 Controls), Hazardous Substances (Identification), Hazardous Substances (Packaging), Hazardous Substances (Disposal), Hazardous Substances (Emergency Management), Hazardous Substances (Tracking).

4.3 Safe working practices are explained in terms of the use of hazardous substances.

Outcome 5

Explain the application of the Mines Rescue Act 2013 and its amendments or replacements relevant to management practices of an extractive site.

Performance criteria Evidence requirements

5.1 The Mines Rescue Act 2013 and its amendments are explained in terms of their application to management of an extractive site.

Range includes but is not limited to – emergency preparedness, emergency response capabilities, levy structure, emergency exercises.

Consent and Moderation Requirements (CMR) reference	0114
--	------

This CMR can be accessed at <http://www.nzqa.govt.nz/framework/search/index.do>.

Please note

~~Providers must be granted consent to assess against standards (accredited) by NZQA, before they can report credits from assessment against unit standards or deliver courses of study leading to that assessment.~~

~~Industry Training Organisations must be granted consent to assess against standards by NZQA before they can register credits from assessment against unit standards.~~

~~Providers and Industry Training Organisations, which have been granted consent and which are assessing against unit standards must engage with the moderation system that applies to those standards.~~

~~Requirements for consent to assess and an outline of the moderation system that applies to this standard are outlined in the Consent and Moderation Requirements (CMR). The CMR also includes useful information about special requirements for organisations wishing to develop education and training programmes, such as minimum qualifications for tutors and assessors, and special resource requirements.~~
