

# Collision Repair Technician (non-structural)

Accelerate your career with a nationally recognised qualification!

## Get qualified with MITO

Passionate about cars? Keep them looking their best by enrolling in MITO's Collision Repair programme.

Developed with I-CAR NZ and endorsed by the Collision Repair Association, this eLearning programme is designed for people with skills in repairing, replacing, and refitting non-structural vehicle panels.

## Gain a national qualification

Choose to complete one or both of the following qualifications:

- New Zealand Certificate in Collision Repair and Automotive Refinishing (Level 3)
- New Zealand Certificate in Collision Repair (Non-Structural Repair) (Level 4).

It is expected to take 3½ years to complete both programmes.

Designed by industry, for industry.

### **Programme outline**

The unit standards within this qualification will ensure that you are able to repair, replace and refit non-structural vehicle panels that have been damaged as a result of a collision, bringing them back to mint condition.

### **A blended approach to learning**

Practical and eLearning training resources are utilised to support a range of learning styles, making it enjoyable and easier to learn. You can also expect a combination of workplace learning, off-job training and self-motivated online study.

Support will be provided by your MITO Industry Training Advisor, workplace supervisor, and specialist trainers.

### **Training fee**

An annual training fee may apply, please visit [www.mito.org.nz/fees-free](http://www.mito.org.nz/fees-free) or contact MITO for details.

### **Sign me up!**

If you are currently employed in the automotive industry and your employer is able to support you, contact MITO and we'll get you prepared for a career as a Collision Repair Technician (non-structural).
