

Accelerate your career with a nationally recognised qualification!

Get qualified with MITO

Stay safe in the workplace with MITO's Workplace Safety programme.

This programme applies to people from all industries where health and safety training and competence are required to provide safe working conditions.

Gain a national qualification

The National Certificate in Occupational Health and Safety (Workplace Safety) (Level 3) is expected to take 9 months to complete.

Designed by industry, for industry.

Programme outline

The compulsory Health and Safety Practice section covers health and safety skills and knowledge required by all industries.

Elective sections allow learners to choose unit standards related to a range of industry-specific workplace health and safety issues. These may include (but are not limited to):

- Hazard identification and risk assessment
- Hazardous substances
- Confined spaces
- Emergency response.

A blended approach to learning

Written and practical training resources are utilised to support a range of learning styles, making it enjoyable and easier to learn. You can also expect a combination of workplace learning, off-job training and self-motivated study.

Support will be provided by your MITO Industry Training Advisor, workplace supervisor and specialist trainers.

Training fee

A training fee applies, please contact MITO for details.

Sign me up!

To enrol, you must be working in a health and safety role or require health and safety credentials for your position. Contact MITO to enhance your career.
