ABOUT MITO

MITO helps thousands of learners gain the knowledge and skills they need to accelerate their careers with on-the-job training and apprenticeships.

This can start while you're at school with our secondary school micro-credential programmes for students in Years 11, 12 and 13.

StartUp[®] Ignition –
Automotive Micro-credential
(Level 2, 20 credits)

StartUp[®] Accelerate –
Automotive Engineering
Micro-credential
(Level 3, 21 credits)

StartUp[®] Accelerate –
Collision Repair and Refinishing
Micro-credential
(Level 3, 21 credits)

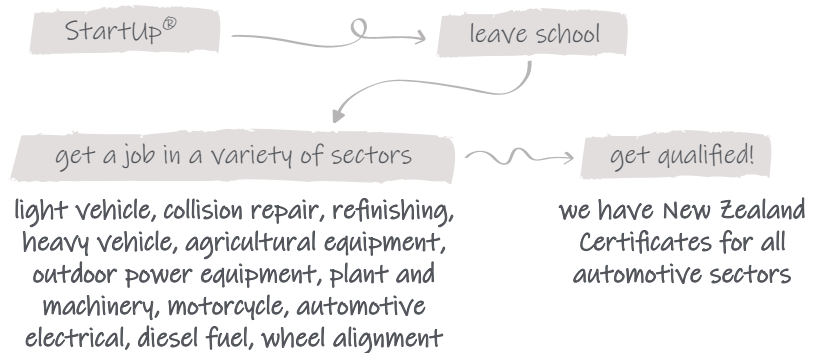

STARTUP[®]

With StartUp[®] you earn micro-credentials approved by NZQA, up to 41 credits towards NCEA and gain valuable work experience in an automotive business. StartUp[®] has both eLearning theory and practical learning supported by a MITO Training Advisor. *StartUp[®] is just like a mini-apprenticeship!*

It's a great way to try the industry and potentially continue on with an apprenticeship when you leave school, just like Fraser Pattie.

While at Roncalli College in Timaru Fraser enrolled in the StartUp[®] Ignition programme and spent one day a week at Babbage & McCullough, a panel and paint business. Towards the end of the year, a collision repair technician position became available and Fraser started his apprenticeship straight away.

CAREER PATHWAY

Keen to find out more? Talk to your careers advisor. Visit mito.nz/startup.

"Trades are great if you aren't interested in university. You earn while you're learning, so you're more likely to get into owning your first house quicker than a uni graduate."

Fraser Pattie, Apprentice Collision Repair Technician, Babbage & McCullough

MICRO-CREDENTIAL

ShiftUp® - Road Transport
Micro-credential

SHIFTUP®

ShiftUp® offers secondary school students the chance to earn an NZQA-approved micro-credential, up to 18 credits towards NCEA and work experience in a road transport business. This could lead to a number of career opportunities – including transporting goods, warehousing, distribution, logistics and administration services. ShiftUp® includes eLearning theory and practical learning supported by a MITO Training Advisor.

“When I visited a careers expo, I had the opportunity to go on a driving simulator and this confirmed to me that I wanted to do a work placement in the transport industry. I am loving MITO’s ShiftUp® programme, as I spend every Monday in the yard learning new skills.”

Mellissa Down-Campbell from Gisborne Girls’ High School.

CAREER PATHWAY

Keen to find out more? Talk to your careers advisor. Visit mito.nz/shiftup.

"I am enjoying this programme because every Monday I am at the workplace helping out. At the moment I am learning how to throw the big chains over the logs, it is hard but I know I'll get it soon!"

Trista Bailey from Gisborne Girls' High School.

MICRO-CREDENTIAL

RockUp® - Surface Mining and
Quarrying Micro-credential

ROCKUP®

With RockUp® you earn an NZQA micro-credential, NCEA credits and gain work experience in a surface mining and quarrying business. You will complete eLearning theory and practical learning at the workplace, supported by a MITO Training Advisor.

Completed unit standards can be used towards the next step in the MITO traineeship in the surface mining and quarrying industry.

INTERESTED IN A HANDS-ON CAREER?

Here are some quick tips to help you on the pathway to an apprenticeship or traineeship career.

School subjects that may be useful include:

- English, Maths, Technology, Computer skills and Science (such as Physics)
- It's important to get your literacy and numeracy credits too, however MITO can assist you with these if necessary when you enrol in a training programme.

You can get work experience through MITO's school programmes:

- While you're at school, try a career for size by enrolling in one of the programmes in this brochure.

A good CV includes:

- Your name and contact details
- An outline of your education, schools attended, any qualifications or courses achieved
- Any work experience you may have
- At least two people that would be happy to recommend you to potential employers.

There are plenty of ways to look for a job including:

- Visit MITO's Job Hub at mito.nz/jobhub to view current vacancies in the industries we support, and to create a jobseeker profile for employers to view
- Job search websites such as Seek and Trade Me Jobs
- Go door knocking to approach local businesses
- Ask family and friends for contacts – many job connections are made through 'word of mouth'.

Make a good impression at your interview by:

- Turning up on time
- Dressing tidily and being polite and friendly
- Asking questions (it shows you're interested) and thanking the employer before you leave.

MITO is a business division of Te Pūkenga -
New Zealand Institute of Skills and Technology.

We support on-job learning and career development
for the automotive, commercial road transport, drilling,
gas, mining and quarrying, passenger services and
ports and stevedoring industries.
